

RoHS, WEEE, REACH

This half day course provides manufacturers, suppliers and other organizations the basic information and knowledge about environmental regulations that may affect their products.

Environmental Regulations: **REACH** (Registration, Evaluation, and Authorization of chemical products), **RoHS** (Restriction of Use of Certain Hazardous Substances in Electrical and Electronic Equipment) and **WEEE** (Waste of Electrical and Electronic Equipment).

You and your company will benefit from the following information:

- What are the benefits and challenges of RoHS, WEEE and REACH for your products.
- How RoHS, WEEE and REACH will affect your products.
- How to identify applicable directives.
- What substances are covered by REACH as well as the procedure the companies must follow to become REACH certified.
- How to get assistance in EU regulatory needs in environmental regulation and explanation in details the necessary requirements.
- What European trends are in harmonization and environmental regulations.
- How to minimize the costs associated with environmental regulations and compliances.

You and your company will have the opportunity to discuss European regulations and codes with professionals who are knowledgeable and specialize in Environmental regulations.
